

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

April 4, 2002

LB 1003

discussion from last evening, the discussion from this morning, I expressed to Senator Beutler that we would take a vote on my idea for the extension of terms for commissioners and then allow him a vote on his amendment. In all fairness, I think that we do have a better proposal if we're going to look at the real issue behind this, and that is one person, one vote, or at least a close proximity of that. That was Senator Redfield's proposal that she worked hard on last evening and this morning. I think you can make no bones about it, that that was a more realistic one person, one vote representation issue as far as allowing equal access to the same number of commissioners for the same number of people that they're supposed to represent. You know, I appreciate what Senator Beutler has tried to accomplish here by not making some of us in rural Nebraska mad by messing with our districts and I can commend him for that, but I...I'm concerned about that eighth member being added. I appreciate the body's indulgence in allowing Senator Schrock to have his amendment added, but I guess what I've been hearing today is, really, it's not broken; let's not try and fix it. And, you know, the reason that Senator Redfield and I were willing to support what we thought was a fair compromise, it wasn't a compromise of the body, it was a compromise between Senator Beutler and the opposition. But what we have heard from a number of you, and some of you have told me, you know, you've been here for six, eight, you know, some more and you've never received a call about your representation, and some of you from urban Nebraska. Now, I know two of the three commissioners personally and I can call them up and find out what's going on and I think that's my responsibility to let them know what's going on, to find out from them, because I have Lake McConaughy. I have a large district with a number of opportunities. That's because of where I live. And I don't think there's any doubt that there needs to be opportunities for citizens of the state of Nebraska to have access to parks, whatever they may be, whether it be Mahoney, whether it be Fort Robinson, whatever that might be, that they have access to recreation. Maybe that's water sports. Maybe that's other activities that are offered to the citizens of the state of Nebraska through Game and Parks. I think that's fine, but I think we have to look at the reality of this, is that we're not going to go into downtown Omaha and build a new Game and Park facility and pave...and tear
